EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mike Smith (registration no. 39,563) on August 22, 2005.

2. The application has been amended as follows:

In the specification, page 11 line 4, after the word "computer-readable" **insert**
storage

Please amend claim 72 as follows:

Claim 72, line 1 after the limitation "computer-readable" **insert** storage

Claim 72, line 5 before the limitation "generating" **insert** running an agent
program for

3. The following is an examiner's statement of reasons for allowance:

Claim 72 has been amended to clarify that a computer-readable storage medium containing computer-executable instructions implements the procedure of the claim, this overcomes potential rejection under 35 USC 101. The communication mailed July 15,

2005 outlines the reasons for allowance. The prior art of record fails to teach the limitation of constructing a catalog of object references as cited in independent claims 1, 21, 30, 51 and 72. Applicant's submission of a terminal disclaimer overcomes the obviousness-type double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greta L. Robinson whose telephone number is (571)272-4118. The examiner can normally be reached on M-F 9:30AM-6:00PM.
